

Meredith Boyce

Digital Accessibility Engineer & QA Specialist | WCAG 2.2, Section 508 & ADA Title II | Government & Enterprise Compliance

Boston, MA · Greater Boston or Remote | (864) 431-7022 | meredith.laurel@gmail.com | [linkedin.com/in/meredith-boyce](https://www.linkedin.com/in/meredith-boyce) | github.com/meredithb104 | meredithb104.github.io

PROFESSIONAL SUMMARY

Digital accessibility engineer and QA specialist with 6+ years of experience validating web, mobile, and other digital content against WCAG 2.2 AA, Section 508, ADA Title II, and WAI-ARIA standards for government agencies and private-sector clients alike. Most recently served as the embedded accessibility subject-matter expert for MassDOT's Digital Services division, documenting 400+ defects and partnering with engineering, product, and program teams to remediate them. Skilled in manual and automated accessibility testing, screen reader validation, defect documentation, remediation guidance, VPAT/ACR review, and cross-functional collaboration. Recognized for accessibility advocacy, including as a White House Champion of Change, a UN Women #SheInnovates Honoree, and a 2026 nominee for the AI-Powered Women Conference at MIT's 100 Changemakers.

HONORS & RECOGNITION

- Nominated as one of the 100 Changemakers for the AI-Powered Women Conference at MIT (2026)
- UN Women #SheInnovates Honoree (2019)
- White House Champions of Change - one of 11 national honorees, recognized for computer science achievement and assistive-technology advocacy (2015)

CORE COMPETENCIES

WCAG 2.0/2.1/2.2 (A, AA, AAA) Testing · Section 508 & ADA Title II Compliance · WAI-ARIA & APG Patterns · Manual & Automated Accessibility Audits · Defect Triage & Remediation Guidance · Screen Reader & Assistive Technology Testing · Mobile Accessibility (iOS/Android) · Accessibility Training & Program Development

PROFESSIONAL EXPERIENCE

Digital Accessibility Engineer / Accessibility SME, *MassDOT (contract via LanceSoft)* May 2025 – Jan 2026

- Embedded with MassDOT Digital Services as the accessibility subject-matter expert and QA partner for cross-functional web and mobile teams, validating products against WCAG 2.1/2.2 AA, Section 508, and ADA Title II.
- Documented 400+ accessibility defects with severity, user impact, WCAG success criteria, reproduction steps, expected behavior, and remediation recommendations, and verified fixes with engineering through to closure.
- Performed manual accessibility QA with JAWS, NVDA, VoiceOver, keyboard-only navigation, and browser inspection, supplemented by automated scans with axe DevTools, Accessibility Insights, and Lighthouse.
- Reviewed third-party VPATs and ACRs to assess product risk and compliance posture, translating findings for technical and nontechnical stakeholders.
- Embedded accessibility acceptance criteria into delivery workflows with designers, engineers, QA, product, and program teams so defects were caught before release.

AmeriCorps Service Member, *Perkins School for the Blind* Sep 2024 – May 2025

- Completed 1,000+ hours of national service in academic programming and student-centered services for students with visual impairments; taught braille and assistive technology; supported students in an academic setting.
- Supervised and coordinated volunteers, including day-of direction, task delegation, and follow-up, and planned, staffed, and ran events and service activities across logistics, participant needs, accessibility requirements, and timelines.

Freelance Accessibility Consultant, *Boyce Accessible Technologies* Jan 2023 – Aug 2024

- Tested and remediated accessibility issues in Swift (iOS), Kotlin (Android), and JavaScript applications against WCAG 2.1 AA, with a focus on assistive technology compatibility.
- Advised client teams on accessible design patterns, keyboard interaction, semantic structure, ARIA usage, defect remediation, and inclusive QA practices.
- Delivered client-facing recommendations, training guidance, and implementation documentation, managing scope, priorities, timelines, and changing requirements directly with clients.

Accessibility Consultant, Industry Lead, *Level Access* Jun 2021 – May 2022

- Led client workstreams and internal initiatives across as many as 46 enterprise clients, managing roughly 23 concurrent workstreams with competing deadlines.
- Delivered accessibility training, consultation, and written guidance to client teams; tested and reviewed audits with screen readers and automated tools, documenting findings against WCAG 2.1 AA with user impact and remediation guidance.
- Stood up accessibility programs from zero for multiple clients: planning, roadmap input, progress reporting to leadership, and ongoing review cycles.

Accessibility Subject Matter Expert, *Equivalent Design*

Jun 2022 – Jan 2023

- Developed and tested accessible digital materials for iOS and Android: screen reader behavior, focus order, labels, gestures, and mobile accessibility patterns.
- Shipped code in 3 major releases of a backend product that went live and was later acquired by a larger firm, including the optimized core algorithm a key function runs on.
- Collaborated with technical and nontechnical stakeholders to clarify requirements, prioritize issues, and communicate accessibility risks and solutions.

Chief Executive Officer / Partner / Web Developer, *Boyce Accessible Technologies; Diversity Crew; RingoFire* Jul 2020 – Apr 2021

- Founded and led Boyce Accessible Technologies, an accessibility consulting firm serving small-business web and mobile clients.
- Served as accessibility and disability subject-matter expert for Diversity Crew (Partner, Jul 2020 – Apr 2021) and completed part-time web development work for RingoFire (Mar – Apr 2021).

Technical Lead, *eSSENTIAL Accessibility* Oct 2019 – Jan 2020

- U.S.-based contractor supporting consumer-facing mobile applications (primarily Java, with Swift and Kotlin); created and audited WCAG 2.0/2.1 reports on mobile applications and website code for high-level clients and managed a diverse team of developers and code reviewers.

Implementation Intern, *AudioEye, Inc.* Jun – Sep 2019

- JavaScript and WAI-ARIA markup for client websites and enterprise software; audited the Digital Accessibility Platform (Java/PHP) for WCAG 2.1 and Section 508 and implemented improvements, including making the platform itself usable by blind users; produced technical reports for Fortune 500 clients.

LEADERSHIP & VOLUNTEER EXPERIENCE

- Volunteer Program & Project Coordinator, The NDProj (current): coordinate volunteers and projects for a nonprofit community supporting neurodivergent and chronically ill students in higher education.
- AmeriCorps Representative to the Massachusetts State House (2024 - 2025).
- Secretary, Women @ Level ERG, Level Access (2021 – 2022).
- Assistant Scoutmaster, Girls' Troop 67, Palmetto Council, Scouts BSA (2019 – 2020).
- Advisory IT Specialist, South Carolina School for the Deaf and the Blind (2012 – 2016) — audited and remediated the school's website; earlier served as a peer technology coach, maintaining student laptops and supporting the school's transition to a one-to-one technology program.

SELECTED TECHNICAL PROJECTS

- **Commons UI**: accessible-by-default React 19 component library with build-time WCAG contrast enforcement and axe-core tests. TypeScript, Vite, Vitest, Playwright
- **MedConnect** (private): Slack app turning appointment screenshots into structured records, calendar events, and reminders. TypeScript, Slack Bolt, Firestore, Gemini.
- **PlannerBot** (private): Discord bot running a nonprofit's projects and social media pipeline with alt text as a hard requirement; ~7,600 lines, 70 modules. TypeScript, discord.js, Firestore, Gemini.

TECHNICAL SKILLS

Assistive Technology

JAWS (primary), NVDA, VoiceOver, TalkBack, Mantis Q40 braille display

Testing Tools

axe DevTools/axe-core, Lighthouse, browser developer tools, Playwright, Vitest

QA and Collaboration

Jira, Git, GitHub, GitHub Actions, test documentation, defect tracking, Agile/Scrum

Programming Languages:

HTML5, CSS3, JavaScript, TypeScript, Python, SQL, Kotlin, Swift, Objective-C, C, Java

Frameworks and Platforms

React, React Native, Angular, Vue, Node.js, design tokens, Vite; Slack Bolt, discord.js, Firestore Gemini REST, Docker, Railway

SPOKEN/WRITTEN LANGUAGES

English (native) · Braille (native) · American Sign Language (professional working) · French (professional working)

EDUCATION

CUNY School of Professional Studies — Disability Studies coursework (2021 – 2022)

Converse University — Computer Science coursework, B.S. program, three years (2015 – 2018); French minor completed; additional coursework in educational psychology, technical writing, and liberal arts; Crescent Service Club; recognized as a White House Champion of Change while a student
